

Interim Report January–September 2009

Q3

IN Q3 2009 TELE2'S NET SALES AMOUNTED TO SEK 9,763 MILLION AND EBITDA INCREASED BY 6 PERCENT TO SEK 2,375 MILLION.

SEK million	Q3			9M		
	2009	2008	%	2009	2008	%
Net sales	9,763	9,520	3	29,376	28,286	4
EBITDA	2,375	2,240	6	6,997	6,007	16
EBIT excluding one-off items	1,451	1,388	5	4,238	3,292	29
EBIT	1,567	419	274	4,291	1,669	157
Net profit/loss	2,184	156		3,736	1,025	264
Earnings per share, after dilution (SEK)	4.92	0.30		8.40	2.24	275

The figures presented in this report correspond to Q3 2009 and continued operations unless otherwise stated. The figures shown in parentheses correspond to the comparable periods in 2008.

SOLID CUSTOMER INTAKE IN SWEDEN

- Tele2 Sweden's mobile operations added 107,000 (127,000) customers in Q3 2009, of which 48,000 (28,000) customers were postpaid mobile voice and postpaid mobile internet customers.

EARLY SUCCESS IN ROLL-OUT OF NEW REGIONS IN RUSSIA

- 7 of the new regions were launched in Russia during Q3 2009, leading to a total customer intake of 1,100,000 (449,000). Despite a strong emphasis on rolling out new mobile operations, the total EBITDA margin of Tele2 Russia amounted to 31 (36) percent.

STABLE OPERATIONAL DEVELOPMENT IN THE BALTIC REGION AND IN CROATIA

- Tele2's Baltic operations gained customer market share in Q3 2009 adding 28,000 customers in spite of a difficult economic environment. In Croatia, Tele2 improved the operational performance and is aiming for EBITDA break-even by 2H 2010.

STRONG OPERATIONAL CONTRIBUTION FROM WESTERN EUROPE

- Tele2 Netherlands prolonged the expansion of its EBITDA margin and delivered 26 (21) percent in Q3 2009. In Austria, the restructuring resulted in good operational progress in the quarter with an EBITDA contribution of SEK 102 (24) million. In Q4 2009, Tele2 sold its French operations for SEK 575 million and is reported as discontinued operation in this report.

BACK TO OUR ROOTS:

Renewed focus on mobile

“ TELE2’S FUTURE GROWTH LIES WITHIN OUR EMERGING MARKET FOOTPRINT, WITH A STRONG EMPHASIS ON RUSSIA.”

Tele2 should always provide the best deal, by combining perceived price leadership with expected quality. Existing and future customers evolve and their demands are increasing. Therefore we must make sure that we never deviate from this strategy in any of our markets.

Providing the best deal also means having best-in-class cost control. I would say that we are in this position, but there is always room for improvement, especially in more mature markets. By benchmarking the different parts of our organization against one another, we will be able to protect and enhance the profitability of our company.

RUSSIA

Tele2’s future growth lies within our emerging market footprint, with a strong emphasis on Russia. Our long experience in developing and managing green-field mobile operations gives us the opportunity to explore new regions or geographies that have not yet been fully exploited, when it fits with our DNA.

In its initial phase, the roll-out of new regions in Russia has shown a development in line with or better than our own expectations. A positive sign is that our more mature regions have experienced a prolonged customer growth and expanded operational profitability. We are constantly fine-tuning our method of rolling out new networks followed by commercial launches. This is why we are certain that we will be able to have all our 20 new regions operational by 1H 2010.

NORDIC

Tele2 is, with our strong brand Comviq, the leader in the Swedish mobile prepaid market. As a complement to our prepaid position we see further potential in the postpaid segment. In Q3 2009, we can note a solid net customer intake in mobile postpaid. We will closely monitor the signs of success that we expect to see filter through, such as continued customer growth together with improved revenue profile. By enhancing the operational performance - especially in the mobile internet segment, but also in mobile postpaid voice, we can stabilize and improve the cash flow contribution in Swedish mobile services.

CENTRAL EUROPE

The situation in the Baltic region continues to be tough and recovery will be very slow. Tele2 has a clear position as the best deal provider, and has been able to grab market share despite difficult times. The net intake was solid and the good progress in the business to business segment has continued into the third quarter.

WESTERN EUROPE

Our Western European market area is performing better than ever. Our Dutch operations contributed with an overall EBITDA margin of 26 percent and will carry on investing in the future. In Austria, progress is still to be made and the restructuring of the business will go on. The cash focus in Germany is and will keep being a top priority.

Going forward - the strategy is simple - Tele2 always offers the best deal.

Harri Koponen
President and CEO, Tele2 AB

Financial overview

Tele2's financial performance is a function of a continued focus on mobile services on our own infrastructure, complemented in some countries by fixed broadband services and business to business offerings. Mobile sales, which continued to grow compared to the same period last year, and a greater focus on mobile services on own infrastructure have led to a prolonged expansion in the EBITDA margin. The decline in the fixed-line services customer base is expected to persist. The company will work on maximizing the return from the product line.

FINANCIAL OVERVIEW

Net customer intake amounted to 1,088,000 (498,000) in Q3 2009. The customer intake in mobile services almost doubled to 1,306,000 (685,000), of which 53,000 (21,000) were mobile internet users. The good intake in mobile services resulted from a solid performance mainly in Tele2 Russia and Tele2 Sweden. In Q3 2009, Tele2 Russia launched 7 new regions in the quarter resulting in a total customer intake of 1,100,000 (449,000) of which 742,000 (-1,000) were derived from new operations. Fixed broadband added 10,000 (8,000) customers in Q3 2009, driven by improved product portfolio in the Netherlands with the introduction of VDSL services. Fixed telephony had an expected outflow of customers in the quarter. In Q3 2009, the total customer base increased to 25,692,000 (23,505,000) due to further success in mobile services.

Net sales in Q3 2009 amounted to SEK 9,763 (9,520) million, an increase of 3 percent. The positive revenue development was driven by good trends in core mobile services and fixed broadband services.

EBITDA in Q3 2009 amounted to SEK 2,375 (2,240) million, equivalent to an EBITDA margin of 25 (23) percent. The EBITDA development was positively affected by strong operational development in fixed broadband services and to some extent was hampered by an increased push in mobile marketing spend with an emphasis on the roll-out of new regions in Russia.

EBIT in Q3 2009 amounted to SEK 1,451 (1,388) million excluding one-off items of SEK 116 (-969) million¹⁾. Including one-off items, EBIT amounted to SEK 1,567 (419) million.

Profit/loss before tax amounted to SEK 1,766 (129) million.

Net profit/loss amounted to SEK 2,184 (156) million. Reported tax for Q3 2009 amounted to SEK 418 (27) million affected by one-off items amounting to SEK 862 (102) million²⁾. Tax payment affecting cash flow amounted to SEK -98 (-90) million.

Cash flow after CAPEX amounted to SEK 1,522 (1,664) million.

CAPEX amounted to SEK 1,169 (942) million, mainly driven by expansion in Russia.

Net debt amounted to SEK 3,951 (5,224) million on September 30, 2009, or 0.48 times full-year 2008 EBITDA. Including guarantees to joint ventures, the net debt to full-year 2008 EBITDA amounted to 0.72 times. Tele2's available liquidity amounted to SEK 10,462 (20,866) million.

FINANCIAL COMMENTS

The market

The Tele2 operations performed well in Q3 2009, despite a slow general recovery in the economic environment. The Baltic regions continued to be negatively impacted in the quarter due to a further deterioration in the general business climate and Tele2 does not envision any near term recovery. However, markets such as Sweden and Russia were to a large extent unaffected and the operational performance was solid in the quarter. Measures taken to offset the impact of economic weakness will be prolonged as long as there are not any signs of a more permanent pick-up in consumer and business activity. Hence, the existing efficiency programs will remain in place to make sure financial performance remains steady. These measures include benchmarking operational cost and capital expenditures to make sure Tele2 stays best in class in operational efficiency.

The following points should be considered when estimating 2009 for the group:

- > Tele2 forecasts a corporate tax rate of approximately 20 percent excluding one-off items. The tax payment will affect cash flow by approximately SEK 800 million.
- > Tele2 forecasts a CAPEX level in the range of SEK 4,700-4,900 million.

The following assumptions should also be taken into account when estimating the longer term operational performance of the group:

- > A mobile operation based on own infrastructure should have the ambition to reach mid 30 percent EBITDA margin.
- > A ROCE target of 20 percent for the total operation of Tele2

Tele2 has GSM licenses in 37 regions in Russia covering 61 million inhabitants. The Russian operations have been divided into 17 old regions and 20 new regions. In Q3 2009, 7 of the new regions were commercially launched and the market's response has been in line with or even better than expected compared to the business plan. The following assumptions should be taken into account when estimating the financial impact of the 20 new regions in 2009:

- > Operational expenditures are estimated at SEK 500-700 million. Capital expenditures are estimated at SEK 1,300-1,500 million.
- > Up to 14 (earlier 12) out of the 20 new regions will be launched in 2009.

¹⁾ See Note 4 and page 21

²⁾ See Note 7

Financial overview, cont.

The following assumptions should also be taken into account when estimating the operational performance of the total operations in Russia between 2010-2011:

- > Subscriber base should be able to reach 18-19 million by YE 2011.
- > Accumulated ARPU growth should amount to 5 percent
- > EBITDA margin in the old regions should evolve in the range of 40-45 percent. New regions' EBITDA margin should break even 2 years from launch. Tele2 Russia's total EBITDA margin should evolve in the range of 25-30 percent.
- > Accumulated Capex in Russia should be in the range of SEK 4,500-5,000 million.

The following assumptions should be taken into account when estimating the Swedish mobile operations in 2010:

- > Tele2 will continue to target higher market share in the postpaid segment resulting in the EBITDA margin trending towards 30 percent.

SALE OF TELE2 FRANCE

In Q4 2009 Tele2 sold its French operations to Virgin Mobile. Virgin Mobile will pay in cash SEK 575 million on a debt and cash free basis. Completion is expected following approval from relevant regulatory authorities.

The transaction resulted in a goodwill impairment loss of SEK 526 million in Q3 2009. As an effect of the divestment, Tele2's French operation are treated as discontinued operations (see Note 9).

DEFINITION OF AN ACTIVE PREPAID CUSTOMER

As a way of standardizing reporting both internally and externally, Tele2 decided in Q2 2009 to change its principles for calculating the number of active customers in its mobile prepaid base. In Q2 2009, the one-time effect was a net increase of 567,000 in the reported customer base. In Q3 2009 and additional adjustment of -249,000 customers was made due to the changed principle (see Note 10).

SHAREHOLDER REMUNERATION

Tele2's intention over the medium term is to pay a progressive ordinary dividend to its shareholders.

BALANCE SHEET

Tele2's longer term financial leverage, defined as net debt / EBITDA ratio, should be in line with the industry and the markets in which it operates and reflect the status of its operations and future strategic opportunities. In the short term, the company also needs to take the uncertainties in the financial markets into consideration and act accordingly.

SIGNIFICANT EVENTS IN THE QUARTER

- Tele2 successfully launched mobile operations in 7 new regions in Russia.
- Tele2 acquired minority stakes in its Russian mobile operation in Izhevsk.
- Tele2 finalized the sale of its fixed broadband operations in Norway.
- Tele2 appointed Dmitry Strashnov as new Executive Vice President and Market Area Director for Russia.
- Tele2 appointed Kristina Vallin as new Director of Human Resources.
- Tele2 held a Capital Markets Day on the 17 September, 2009.

SIGNIFICANT SUBSEQUENT EVENTS

- Tele2 divests Tele2 France to Virgin Mobile for SEK 575 million on a debt and cash free basis.

Overview by region

NORDIC SWEDEN AND NORWAY

THE MOBILE CUSTOMER
BASE IN SWEDEN INCREASED
IN Q3 2009 BY

107,000

The Nordic market area is a strong cash-flow generator to the Tele2 organization and also the test bed for new services.

SWEDEN

> Mobile In Q3 2009, Tele2 Sweden had a strong quarter adding 107,000 (127,000) new customers, of which 43,000 (20,000) were mobile internet users. The total mobile internet customer base amounted to 261,000 (155,000) in the quarter. Tele2 Sweden is expecting prolonged growth within the mobile internet segment and will leverage on the company's strong distribution platform. Net sales development in the quarter was stable, amounting to SEK 1,943 (1,969) million

In Q3 2009 an increasing share of net customers on postpaid voice services were with monthly installment plans, resulting in 41 percent of total gross additions being with monthly installments. Within the total postpaid voice consumer segment 25 (19) percent of the customer base had monthly installment plans in Q3 2009. As a consequence, the acquisition costs in the quarter increased.

In the consumer segment, price sensitivity increased in Q3 2009 and subscriptions with low cost and longer contracts became more popular. Likewise there was a higher demand for new terminals. Tele2 Sweden will capitalize on this trend by stressing price perception in marketing campaigns.

EBITDA contribution was SEK 600 (708) million in Q3 2009. The termination rate was lowered by the authorities from SEK 0.43 to SEK 0.32 from July 1, 2009, negatively affecting EBITDA with SEK -33 million in the quarter. The prepaid voice segment showed a stable operational result with an EBITDA margin of 51 (47) percent.

In the business segment, Tele2 Sweden was affected in the quarter by slow economic activity, resulting in decreasing MoU (Minutes of Use). Still, Tele2 Sweden managed to leverage on its best deal position, winning several major contracts in Q3 2009.

The mobile operations in Sweden reported an ARPU of SEK 197 (214). ARPU for mobile internet increased in the quarter to 132 (108) SEK. MoU per customer, excluding mobile internet, increased to 229 (226) in Q3 2009.

In Q3 2009 the first two Tele2 Stores were launched in Sweden. The Tele2 Stores have already delivered good sales and profitability as well as improved sales in value-added services. Tele2 Stores are a good match to the existing distribution channels with the aim of reaching and serving our customers. In order to support increased fixed to mobile substitution, Tele2 Sweden launched a service to connect a fixed number to a mobile subscription in the quarter.

Costs associated with SUNAB joint venture amounted to SEK -103 (-129) million in Q3 2009.

Accelerated depreciation rate of Tele2 Sweden's existing GSM network amounted to SEK 36 million in the quarter. In total, Tele2 Sweden will increase its depreciation by SEK 470 million over 39 months, a process which started with Q2 2009.

> Fixed Broadband The fixed broadband market focused in Q3 2009 on bundling offerings of fixed broadband and fixed voice. The sales of fixed broadband in the quarter increased, mainly due to new installed LAN networks. Tele2 Sweden has a clear price position in the fixed broadband market and has focused on cross selling products to existing customers.

In the quarter Tele2 Sweden maintained its market share and improved profitability on fixed broadband services. Tele2 Sweden reached an EBITDA margin of 13 (5) percent, mainly by concentrating on bundled products together with lower direct costs.

> Fixed Telephony The scope of the fixed telephony market is slowly decreasing and activities are highly linked with the fixed broadband sales.

Tele2 Sweden had a decreasing churn in the fixed telephony segment in Q3 2009 as a direct result of ongoing retention activities. In the quarter, Tele2 Sweden has seen a continued demand from customers in low tariff fixed price plans and VoIP subscriptions. To respond to current demand, Tele2 Sweden has introduced competitively priced VOIP products sold together with fixed broadband in selected networks.

In the business segment, fixed telephony has shown a healthy growth and margin development.

Lowered mobile termination rate had a positive impact on fixed telephony EBITDA of SEK 11 million.

NORWAY

> Mobile Tele2 Norway was able to deliver an improved revenue and EBITDA result compared to previous quarter. This was achieved through intensified efforts to bring costs down and keep improving the quality of the overall customer base. During Q3 2009, mobile prepaid voice services were launched through new retail channels. The net intake in Q3 2009 amounted to 7,000 (4,000).

EBITDA contribution was SEK 58 (63) million in Q3 2009. The termination rate was lowered by the authorities from NOK 1.15 to NOK 1.00 from February 10, 2009, negatively affecting EBITDA with SEK -29 million in the quarter.

The EBIT result was negatively impacted by Tele2 Norway's share of the result from the Mobile Norway joint venture of SEK -17 (-17) million in Q3 2009.

> Fixed Telephony The overall performance for fixed telephony was stable in Q3 2009 with an improved EBITDA contribution compared to Q2 2009. This was achieved through intensified efforts to bring costs down and keep improving the quality of the overall customer stock.

Overview by region, cont.

RUSSIA

THE MOBILE CUSTOMER BASE
INCREASED IN Q3 2009 BY

1,100,000

The Russian operation is Tele2's most important growth engine. The company has GSM licenses in 37 regions with approximately 61 million inhabitants.

> **Mobile** During Q3 2009, Tele2 Russia continued with its strategy of improving the operational contribution of its 17 mature regions to support the roll-out of commercial networks in its 20 new regions.

In the quarter, 6 of the new regions were commercially launched and the market's response has been in line with or even better than expected compared to the business plan. The customer base of the new regions grew by 742,000 customers. 5 new regions will be launched in Q4 2009 as planned (the process for awarding the new licenses is still partially challenged at court).

Tele2 Russia had an overall robust customer intake and added 1,100,000 (449,000) new users in the quarter. The customer intake was also supported by lower churn in the total base. Despite an impact from customer base growth in new regions MoU for the total operations increased by 6 percent compared to Q3 2008, amounting to 215 (203). ARPU amounted to 49 (54), negatively affected by an unfavourable currency movement.

Tele2 Russia increased prices in regions where market conditions permitted, but the general pricing environment remained highly competitive.

Supported by customer growth, Tele2 Russia carried on demonstrating good financial performance in the quarter. Revenue grew by 8 percent in Q3 2009 compared to the same period last year. As expected, EBITDA margin declined sequentially because of the launches of new regions. However, the actual decline was lower than expected driven by effective cost management. EBITDA in the 17 old regions amounted to SEK 740 (650) million, equivalent to a margin of 40.5 (37.3) percent. EBITDA in the new regions amounted to SEK -144 (-22) million.

Tele2 Russia will continue to look for possibilities to carefully expand its operations through new licenses as well as complementary acquisitions which fit with its corporate culture.

Overview by region, cont.

CENTRAL EUROPE ESTONIA, LATVIA, LITHUANIA AND CROATIA

THE MOBILE EBITDA MARGIN
IN LITHUANIA AMOUNTED
IN Q3 2009 TO

35%

The current economic turmoil continues to affect the Baltic countries negatively. Tele2 will remain focused on creating a strong operational platform it can leverage on once economic stability re-emerges in the region. To offset the negative GDP impact, Tele2 has selectively increased its marketing activities to gain market share on high value ARPU customers. The tough economic climate is expected to persist throughout 2009. Tele2 sees this development as a possibility to move its market position carefully forward and present the best deal to customers becoming increasingly price-sensitive.

Tele2's Croatian operation is a strong challenger as it offers the best deal in both voice services and mobile internet.

ESTONIA

> **Mobile** The strong economic downturn trend was prolonged in Q3 2009 and price pressure in all customer segments remained high. This challenging economical situation affected the hardware sales most, whereas MoU kept growing. Despite the difficult economical environment, Tele2 Estonia was able to show relatively good operational result.

As the clear price leader, Tele2 Estonia has been taking advantage of more customers reviewing their telecom service provider and acquired both residential and corporate customers. The competitive price pressure on the mobile market was still tough in the quarter. Tele2 Estonia has continued to be an indisputable winner on number portability.

LATVIA

> **Mobile** Latvia still suffered from a very demanding economic climate in Q3 2009. The economy has been heavily affected by fallen trade exports and weak domestic demand driven by low consumer and business confidence, growing unemployment, wage cuts, and the credit squeeze. Together with increasing competition, the mobile market has experienced a very tough pricing environment, affecting the operational result in both the prepaid and the postpaid segments in Q3 2009.

Tele2 Latvia increased its customer base in Q3 2009 with good growth in the prepaid segment. The postpaid segment however was affected by the weak economy and experienced higher bad debt, which had an effect upon the overall profitability in the quarter.

Tele2 Latvia continued to work actively in the corporate segment, including state-owned companies, which has already resulted in important wins over competitors. This opportunity has been facilitated by a slower economy, making business customers more price sensitive.

LITHUANIA

> **Mobile** Tele2 was the market leader in the postpaid residential segment in Q3 2009 with 39 percent customer share according to the National Regulatory Agency (NRA). A sustained price leadership position has been beneficial for Tele2 Lithuania in a period of market slowdown.

The economic downturn negatively affected ARPU in Q3 2009, leading to a decreasing revenue. However, Tele2 was able to successfully increase profitability by better managing acquisition costs, and the EBITDA margin amounted to 35 (29) percent in Q3 2009.

In 2009, Tele2 will enhance its focus on the corporate segment. As the market becomes more price sensitive, there is an opportunity for Tele2 to move its position forward among private companies, municipalities and state-owned organizations. Tele2 will also enter the mobile internet market by providing 3G based services in major parts of Lithuania in 2009.

CROATIA

> **Mobile** Tele2 Croatia developed according to plan during Q3 2009 and added 70,000 (74,000) customers, partly driven by summer tourists. The revenue development was solid and increased by 39 percent to SEK 342 (246) million.

From a regulatory perspective, Q3 2009 was dominated by the introduction of several new fees and taxes, including an increase of VAT and income tax as well as a 6 percent fee imposed on mobile operators' gross revenue (effective from 1 August 2009). Despite the new fees, Tele2 Croatia improved its EBITDA by 44 percent in the quarter.

Overview by region, cont.

WESTERN EUROPE THE NETHERLANDS, GERMANY AND AUSTRIA

THE EBITDA MARGIN IN THE NETHERLANDS AMOUNTED IN Q3 2009 TO

26%

The Western European market area has changed significantly in geographic scope over the last two years. Throughout 2008, the focus has been to manage the existing operations more effectively, by concentrating on customer base management and using more cost effective sales channels, such as web and inbound customer service calls. Hence, the operational performance of the market area improved during the last year. In 2009, Tele2 will keep on improving the efficiency of the different geographies, by paying particular attention to customer base management and the reduction of the overall cost base.

THE NETHERLANDS

> **Mobile** The competitive environment remained –as in previous quarters– fierce, with several MNO's and MVNO's being active in the Dutch market. In order to remain competitive, Tele2 Netherlands moved its customer base to the T-Mobile network at the end of Q3 2009. As a result, Tele2 Netherlands will be able to improve its margins in the following quarters. During the third quarter, Tele2 Netherlands also launched a mobile internet product with data bundles ranging from 250MB to 2.5GB. The mobile internet market in the Netherlands is not fully developed, as prices are at a relatively high level, which allows Tele2 Netherlands (as a MVNO) to offer a competitive product.

> **Fixed Broadband** During the third quarter, the residential fixed broadband market once again developed according to expectations. Tele2 Netherlands continued to materialize on its increased brand awareness, price leadership position and quality awards, leading to a further increase of its broadband order intake in the residential segment, which resulted in Tele2 being the fastest grower in the Dutch market. In Q3 2009, Tele2 Netherlands also launched a VDSL product, called Fiberspeed, which offers customers download speeds of up to 60 Mbps.

During the third quarter, Tele2 saw again an increase in order intake in the large corporate segment, mainly in relation to on-net services such as data and voice.

> **Fixed Telephony** The traditional fixed telephony market declined as a result of bundled (dual play) offers. More price sensitive customers, due to the economic turmoil, might accelerate the trend as consumers recognize savings on package offerings. Tele2 Netherlands continued to up-and cross sale its fixed telephony base towards its bundled offerings. The company also continued to retain its CPS customer base with WLR, which slowed churn down. Tele2 Netherlands has followed the price increases of competition, but kept its price leading position against the incumbent.

GERMANY

> **Fixed Broadband** The German fixed broadband market having showed signs of market saturation, further market consolidation is to be expected. Market players focused on switching resale customers to unbundled products. Mainly cable operators as well as the incumbent continued with promotional pricing as a marketing tool.

Tele2 Germany prolonged its broadband strategy of aiming at profitability rather than market share. Due to a strong focus on customer base management and retention, the churn trended down in Q3 2009.

> **Fixed Telephony** Tele2 Germany remained the largest CPS (Carrier Pre-Select) provider in the market. Thanks to strong emphasis on retention and customer base management, the customer base has developed better than planned in Q3 2009. The EBITDA margin for fixed telephony amounted to 41 (41) percent in the quarter. The pricing environment in the fixed telephony market remained stable in Q3 2009. Most alternative operators centred their marketing activities on fixed broadband services, which led to relatively low price competition.

AUSTRIA

> **Fixed Broadband** Tele2 Austria maintained its effort to improve the overall cost structure and concentrate on a more selective service portfolio in both the consumer and the business segment. Because retention was given precedence over marketing efforts, the turnover in the customer base declined in Q3 2009. The improvement of the overall cost structure of Tele2 Austria brought higher EBITDA contribution in the quarter compared to the same period last year. The cash flow in Q3 2009 improved thanks to less network costs and capital expenditures in combination with lower indirect costs. The process of streamlining the organization will continue throughout 2009.

> **Fixed Telephony** The decline of the fixed-line base slowed down in Q3 2009 because of more effective retention measures that impacted the churn positively. In the business market, fixed telephony services sustained a stable development.

Other items

RISKS AND UNCERTAINTY FACTORS

Tele2's operations are affected by a number of external factors. The risk factors considered to be most significant to Tele2's future development are operating risks such as the economic recession, operations in Russia, changes in regulatory legislation in telecommunication services, increased competition, introduction of new services, ability to attract and retain customers, legal proceedings and financial risks such as currency risk, interest risk, liquidity risk and credit risk. In addition to the risks described in Tele2's annual report for 2008 (see Directors' report and Note 2 of the report for a detailed description of Tele2's risk exposure and risk management), no additional significant risks are estimated to have developed.

COMPANY DISCLOSURE

Tele2 AB (publ) Annual General Meeting 2010

The 2010 Annual General Meeting will be held on May 17, 2010 in Stockholm. Shareholders wishing to have a matter considered at the Annual General Meeting should submit their proposals in writing to agm@tele2.com or to the Company Secretary, Tele2 AB (publ), P.O. Box 62, SE-164 94 Kista, Sweden, at least seven weeks before the Annual General Meeting in order that the proposal may be included in the notice to the meeting.

Further details on how and when to register will be published in advance of the Annual General Meeting.

Nomination committee for the 2010 Annual General Meeting

A Nomination Committee of major shareholders in Tele2 AB (publ) has been formed in accordance with the resolution of the 2009 Annual General Meeting. The Nomination Committee is comprised of Cristina Stenbeck on behalf of Investment AB Kinnevik, Åsa Nisell on behalf of Swedbank Robur Fonder, Peter Lindell on behalf of AMF Pension and Ramsey Brufer on behalf of Alecta. Information about the work of the Nomination Committee can be found on Tele2's corporate website at www.tele2.com.

Shareholders wishing to propose candidates for election to the Board of Directors of Tele2 AB (publ) should submit their proposal in writing to agm@tele2.com or to the Company Secretary, Tele2 AB (publ), P.O. Box 62, SE 164 94, Kista, Sweden.

Other

Tele2 will release the financial and operating results for the period ending December 31, 2009 on February 9, 2010.

Stockholm, October 21, 2009
Tele2 AB

Harri Koponen
President & CEO

REVIEW REPORT

The financial and operating results for this interim report have not been subject to review by the Company's auditors.

INTERIM RESULT CONFERENCE CALL

Tele2 will host a conference call, with an interactive presentation, for the global financial community at 10.00 am CET (09.00 am UK time / 04.00 am NY time) on Wednesday, October 21, 2009. The conference call will be held in English and also available as audiocast on Tele2's website, www.tele2.com.

DIAL-IN INFORMATION:

To ensure that you are connected to the conference call, please dial in a few minutes before the start of the conference call to register your attendance.

DIAL-IN NUMBERS:

Sweden: +46 8 505 598 53
 UK: + 44 203 043 24 36
 US: + 1 866 458 40 87

You will also be in a position to listen to the conference call afterwards:

Replay number until November 4, 2009:
 Sweden: +46 8 506 269 49
 Passcode: 1750100#

 Notes

TELE2 IS ONE OF EUROPE'S LEADING TELECOM OPERATORS, ALWAYS PROVIDING THE BEST DEAL. We have 26 million customers in 10 countries. Tele2 offers mobile services, fixed broadband and telephony, data network services, cable TV and content services. Ever since Jan Stenbeck founded the company in 1993, it has been a tough challenger to the former government monopolies and other established providers. Tele2 has been listed on the NASDAQ OMX Stockholm since 1996. In 2008, we had net sales of SEK 38.3 billion and reported an operating profit (EBITDA) of SEK 8.2 billion.

Notes

ACCOUNTING PRINCIPLES AND DEFINITIONS

For the Group, the interim report has been prepared in accordance with IAS 34 and the Swedish Annual Accounts Act, and for the parent company in accordance with the Swedish Annual Accounts Act and the Swedish Financial Reporting Board recommendation RFR 2.2 Reporting for legal entities and its statements.

Net result from central group functions has, with retroactive effect, been separated from the segment Sweden and are instead reported in segment Other. For additional information please refer to Note 13. As a result segment Other now mainly includes the parent company Tele2 AB, central functions, Datamatrix, Radio Components, Procure IT Right, and other minor operations.

From Q1 2009 divested operations, which have not previously been classified as discontinued operations, are reported in the segment Other. Previous periods have been adjusted retroactively.

As a way of standardizing reporting both internally and externally, Tele2 has decided to change its principles for calculating the number of active customers in its mobile prepaid base. For further information please refer to Note 10.

Revised IAS 1 Presentation of Financial Statements

The adoption of the revised IAS 1 results in that total comprehensive income is now presented in an income statement and a separate statement of comprehensive income. The statement of changes in equity now includes only transactions with owners and comprehensive income. Items of comprehensive income were previously included in the statement of changes in equity.

IFRS 8 Operating Segments

IFRS 8 replaces IAS 14 Segment Reporting and introduces the "management approach" to segment reporting. The operating segments are identified based on the internal reports regularly reviewed by the Tele2's Chief Operating Decision Maker. Tele2's Executive Board has been identified as the Chief Operating Decision Maker. The adoption of IFRS 8 does not require any change in the presentation of the segments as those, as previously, are presented at country level, which corresponds to the level they are reviewed by the Chief Operating Decision Maker. Accordingly, there has been no restatement of previously reported information except for the items described above. The accounting principles applicable for the segment presentation are the same as those principles described in the Annual Report for 2008.

Other new and amended IFRS standards and IFRIC interpretations

The other new or amended IFRS standards and IFRIC interpretations, which became effective January 1, 2009, have had no material effect on the consolidated financial statements.

Tele2 has, in all other respects, presented its interim report in accordance with the accounting principles and calculation methods used in the 2008 Annual Report. Definitions are found in the 2008 Annual Report.

NOTE 1 NET SALES

In Q3 2009, net sales in segment Other were increased by SEK 76 million related to a settlement with another operator. The positive effect is reported as a one-off item.

In Q2 2009, net sales in Sweden were decreased by SEK 59 million related to the revaluation of reserves. The negative effect is reported as a one-off item.

During Q2 2009 two operations in Latvia have been merged. Internal sales between the two companies have been eliminated with retroactive effect on previous periods.

In Q1 2009, net sales for fixed broadband in Netherlands were increased by SEK 50 million related to settlement of disputes with another operator.

In Q4 and Q3 2008, net sales in Sweden were reduced by SEK 32 and 58 million respectively related to interconnect disputes with TeliaSonera and a number of other operators. The amounts are reported as one-off items. Tele2 has from a cash flow view paid SEK 533 million regarding disputes with TeliaSonera in Q2 2008. Decision by the district court in the case of Tele2's claims on TeliaSonera is expected in 2010.

Net sales were negatively impacted in Q1 2008 by SEK 61 million in the Austrian fixed broadband operations due to revaluation of reserves.

NOTE 2 OPERATING EXPENSES

In Q1 2009 Netherlands was negatively affected by SEK 38 million concerning retroactive price adjustments related to network costs mainly related to fixed broadband.

In Q3 2008 Netherlands was positively affected by SEK 63 million concerning a settlement with Versatel AG/APAX mainly related to the valuation of stock options for tax purposes. The amount is reported as a one-off item.

DEPRECIATION/AMORTIZATION AND IMPAIRMENT

In Q4 2008 Sweden recognized impairment losses on fixed assets of SEK 70 million mainly related to the cable TV network.

In Q3 2008 Tele2 recognized goodwill impairment losses in Austria of SEK 783 million and SEK 46 million related to customer agreements. Central IT-systems in Sweden have been impaired with SEK 114 million.

Due to the existing severe competitive market situation for broadband in Germany, in Q2 2008 Tele2 performed an impairment test that resulted in reported impairment losses in the quarter related to goodwill SEK 183 million and in investment in joint venture Plusnet of SEK 555 million.

Impairment of goodwill is stated below.

Total contingent liabilities	6,248	6,618

On January 27, 2009, the County Administrative Court declined Tele2's claim for a tax deduction of SEK 13.9 billion corresponding to a tax effect, excluding interest, of SEK 3.9 billion related to the S.E.C. tax dispute, of which SEK 186 million has been expensed (please refer to Note 7). In Q1 2009 the County Administrative Court's ruling has been appealed to the Administrative Court of Appeal. The interest is estimated to amount to SEK 630 million at September 30, 2009 and SEK 653 million at December 31, 2008. The tax dispute is presented in detail in Note 15 of the 2008 Annual Report.

Additional contractual commitments and liabilities related to joint ventures are stated in Note 32 in the Annual Report for 2008.

NOTE 7 TAXES

During Q3 2009 net taxes have been positively affected by SEK 1,071 million as a result of valuation of deferred tax assets related to holding companies in Luxembourg.

Tele2 Sweden has received a negative tax ruling, mainly regarding a deduction for contribution to its subsidiary Tele2 Norway for write off of a MVNO-agreement. The declined deductions have affected the tax cost negatively by SEK 209 million in Q3 2009, but will not have any cash flow effects.

In Q1 2009 SEK 186 million as well as SEK 10 million have been expensed regarding the S.E.C. dispute and other tax disputes respectively. Total tax and interest paid in Q1 2009, related to tax disputes, amounted to SEK 395 million out of which SEK 163 million had already been provisioned for in 2005. The tax dispute is presented in Note 15 of the 2008 Annual Report.

In Q4 2008, a revaluation of deferred tax assets was reported negatively affecting the income statement by a net of SEK 143 million due to reduced income tax rates in Sweden and Russia.

The tax cost has during 2008 been affected positively with SEK 676 million as a result of write-downs of shares in group companies are tax deductible in the legal entity in Luxembourg and no temporary differences exist relating to these investments.

In Q3 2008 net taxes have been positively affected by SEK 102 million as a result of valuation of deferred tax assets related to continued improved earnings in Russia.

NOTE 8 SHARES AND CONVERTIBLES

In order to ensure delivery of shares under the incentive program 2009–2012 Tele2 has, in Q3 2009, issued 850,000 Class C shares through a directed placement at a subscription price corresponding to a quota value of SEK 1.25 per share, a total of SEK 1 million. The Class C shares are not entitled to dividends and represent one vote each. Tele2 has immediately after the issue repurchased all Class C shares at a price corresponding to the subscription price.

Tele2 has, in Q2 2009, paid to the shareholders an ordinary dividend of SEK 3.50 per share and an extraordinary dividend of SEK 1.50 per share, corresponding to SEK 1,541 million and SEK 661 million respectively and totalling SEK 2,202 million.

In Q3 2008 Tele2 has repurchased own shares of Series B of 4,500,000, corresponding to 1 percent of all shares in Tele2, for a cost of SEK 462 million. The repurchased shares have been cancelled in Q2 2009, which has resulted in a reduction of the share capital of SEK 5 million.

In Q2 2009, 44,710 class A shares were reclassified into class B shares. The reclassification was made in accordance with the resolution approved at the Annual General Meeting on May 11, 2009. In Q3 2009, additional 12,997,000 class A shares were reclassified into class B shares.

INCENTIVE PROGRAM 2009–2012

The Annual General Meeting on May 11, 2009, approved an incentive programme for allocation to senior executives and other key employees in the Tele2 Group.

The incentive program ("the Plan") includes a total of 72 senior executives and other key employees within the Tele2 Group. The participants in the Plan are required to own shares in Tele2. These shares can either be shares already held or shares purchased on the market in connection with notification to participate in the Plan. Thereafter the participants have been granted, free of charge, retention rights and performance rights on the terms stipulated below.

For each share held under the Plan, the participants will be granted retention rights and performance rights by the company. Subject to fulfilment of certain retention and performance

based conditions during the period April 1, 2009–March 31, 2012 (the "Measure Period"), the participant maintaining the employment within the Tele2 Group at the date of the release of the interim report January–March 2012 and subject to the participant maintaining the invested shares, each retention right and performance right entitles the employee to receive one Class B share in the company. Dividends paid on the underlying share will increase the number of retention and performance shares being allotted in order to treat the shareholders and the participants equally. The participant's maximum profit per right in the Plan is limited to SEK 355, five times the average closing share price of the Tele2 Class B shares during February 2009 (SEK 71).

The Board of Directors was authorized during the period until the next Annual General Meeting, to increase the company's share capital by not more than SEK 1,062,500 by the issue of not more than 850,000 Class C shares, each with a ratio value of SEK 1.25. With disapplication of the shareholders' preferential rights, Nordea Bank AB (publ) shall be entitled to subscribe for the new Class C shares at a subscription price corresponding to the ratio value of the shares. Moreover, it was resolved to authorise the Board of Directors, during the period until the next Annual General Meeting, to repurchase the new Class C shares. The repurchase may only be effected through a public offer directed to all holders of Class C shares and shall comprise all outstanding Class C shares. The purchase may be executed at a purchase price corresponding to not less than SEK 1.25 and not more than SEK 1.35. Payment for the Class C shares shall be made in cash. The purpose of the repurchase is to ensure the delivery of Class B shares under the Plan. Further, it was resolved that Class C shares that the Company purchases by virtue of the authorisation to repurchase its own shares, following reclassification into Class B shares, may be transferred to participants in accordance with the terms of the Plan. The new issue and the repurchase were performed during Q3 2009.

The Plan comprise a total number of 140,040 shares and the following number of rights for the different Groups: a) 8,000 shares and 7 rights per invested share for the CEO, b) 28,000 shares and 6 rights per invested share for other senior executives (7 persons) and c) 104,040 shares and 4 rights per invested share for other participants (64 persons).

	2009 Jun 1–Sep 30
Number of rights	
Allocated June 1, 2009	640,160
Total outstanding rights	640,160

Total costs before tax for outstanding rights in the incentive program are expensed as they arise over a three-year period, and these costs are expected to amount to SEK 28 million.

The estimated average fair value of the granted rights was SEK 50.70 on the grant date, June 1, 2009. The calculation of the fair values has been carried out by external analysts. The following variables have been used where Serie A is based on total shareholder return (TSR), Serie B is based on the company's average normalised return on capital employed (ROCE) and Serie C is based on total shareholder return (TSR) compared to a peer Group.

	Serie A	Serie B	Serie C
Annual turnover of personnel	7.0%	7.0%	7.0%
Expected value reduction parameter fulfilment	-	50%	-
Weighted average share price	76.70	76.70	76.70
Expected life	2.90 years	2.90 years	2.90 years
Expected value reduction parameter market condition	70%	-	30%

Value reduction parameter fulfilment is evaluated to be 50 per cent at September 30, 2009.

ACQUISITIONS

Izhevsk, Russia

In July 2009, Tele2 acquired the remaining 25.5 percent of the shares in Tele2 Izhevsk in Russia for SEK 316 million. After this acquisition Tele2 owns 100 percent of the company's shares. Approximately SEK 25 million of the purchase price will be paid after 12 months of the completion.

Croatia

In June 2009, Tele2 acquired the remaining 7 percent of the shares in Tele2 Croatia for SEK 100 million, which is reported as goodwill. After this acquisition Tele2 owns 100 percent of the company's shares.

Netherlands

During the first half of 2009 Tele2 acquired the remaining 0.34 percent of the shares in Tele2 Netherlands for SEK 28 million. After this acquisition Tele2 owns 100 percent of the company's shares.

Sweden

In March 2009, Tele2 acquired all shares in a company which possesses a license in Sweden, for SEK 70 million. During 2009 the acquisition has had no material impact on Tele2's income statement.

Other acquisitions

SEK 30 million was paid during 2009 regarding previous year's acquisition of Kaliningrad.

Net assets at the time of acquisition

Assets, liabilities and contingent liabilities included in the acquired operations are stated below.

Liabilities to former owners etc			-25			-
NET EFFECT ON GROUP CASH ASSETS			291			70

The information above and the pro forma below are to be viewed as preliminary.

DIVESTMENTS

See separate section for discontinued operations.

Norway, fixed broadband operation

On May 29, 2009 Tele2 sold its fixed broadband operation including VoIP customers in Norway for SEK 117 million and with a capital gain of SEK 44 million. The operation has affected Tele2's net sales year-to-date by SEK 181 (301) million and full year 2008 by SEK 391 million, and EBITDA by SEK -3 (-42) million and full year 2008 by SEK -44 million. The sale was completed on July 1, 2009 after receiving approval from the regulatory authorities. The sale has not been reported as discontinued operation since the entire operation in the country has not been sold.

Other divestments

Other cash flow changes include settlements of sales costs and price adjustments in the amount of SEK 60 million, for divestments during 2008 that have not been classified as discontinued operations.

Net assets at the time of divestment

Assets, liabilities and contingent liabilities included in the divested operations at the time of divestment are stated below.

SEK million	Norway, fixed broadband
Tangible assets	58
Divested net assets	58
Capital gain/loss	44
Sales price, net sales costs	102
Sales costs etc, non-cash	15
Less: cash in divested operations	-
TOTAL CASH FLOW EFFECT	117

PRO FORMA

The table below shows the effect of the acquired and divested companies and operations at September 30, 2009 on Tele2's net sales and result, had they been acquired and divested at January 1, 2009.

SEK million	Jan 1–Sep 30, 2009			Tele2 Group, pro forma
	Tele2 Group	Acquired operations before the time of acquisition	Less divested operations ¹⁾	
Net sales	29,376	-	-181	29,195
EBITDA	6,997	-	3	7,000
Net profit/loss	3,736	-	14	3,750

¹⁾ Less Tele2 France since reported as discontinued operations

DISCONTINUED OPERATIONS

France

On October 15, 2009 Tele2 announced the sale of its operation in France for approximately SEK 575 million on a debt and cash free basis. Completion is expected following approval from relevant regulatory authorities.

In Q3 2009 Tele2 recognized goodwill impairment loss in France of SEK 526 million. An agreement to sell the operation in France was signed in October 2009 and the impairment in September reflects the difference between estimated sales price and assets sold. When the sale has been finalized a positive effect of approximately SEK 120 million will be reported as capital gain due to reversal of exchange rate differences previously reported directly in equity. The sale and the impairment loss is related to severe competition on a mobile market where we have a disadvantageous position as MVNO-operator.

In Q3 2009 France was positively affected by SEK 39 million concerning revaluation of reserves.

In Q3 2009, Tele2 decided to change its method for calculation the number of customers in its French mobile post-paid base. The one-time effect was a decrease of 37,000 in the reported customer base in France. In Q2 2009 Tele2 changed its principles for calculating the number of active pre-paid customers according to Note 10, with a one-time effect of -14 000 customers.

The divestment has been reported separately as discontinued operations in the income statement, with retrospective effect on previous periods, and in the balance sheet from September 30, 2009 according to IFRS 5-Non-current assets held for sale and discontinued operations.

Other discontinued operations

Discontinued operations also include settlements of sales costs and price adjustments for discontinued operations sold during previous year, of which SEK 183 million refers to a positive outcome from a dispute in the divested operation in Switzerland with a positive effect on both income statement and cash flow, and a positive cash flow effect of SEK 116 million related to settlement regarding Poland.

Financial statements

Income statement for discontinued operations is stated below.

NOTE 10 NUMBER OF CUSTOMERS

As a way of standardizing reporting both internally and externally, Tele2 has decided to change its principles for calculating the number of active customers in its mobile prepaid base. As of June 30, 2009, Tele2 considers a customer inactive if the customer has not used its mobile service in 3 months, instead of as earlier 3 to 13 months. Previous periods have not been adjusted retroactively. In Q3 2009, additional adjustments have been done of the customer base in Russia and Lithuania to reach conformity with new principle.

An active prepaid customer is a customer that has a refillable active account and has been either refilling or doing an active outgoing transaction during the latest 90 days (if the transaction doesn't generate revenues the customer must have refilled the account at least once before). Outgoing transactions which are free, count only if the customer refilled the card at least once. However, the customer will still, as before, be able to use their SIM card within the period that is valid for each country.

In Q2 and Q3 2009, the one-time effect was a net increase of 567,000 and a decrease of -249,000 respectively in the reported customer base. The large positive effect that the changed principle has had on the Russian customer base is mainly related to the fact that the 3 months period was previously calculated from the time of the payment and not as the new definition from the last outgoing call. In the chart below is presented how the customer base has been affected by the changed definition in each country.

Thousands	Number of customers at June 30, 2009			Q3 2009
	Before	Changed definition	After	Additional change ¹⁾
Sweden	3,436	-200	3,236	-
Norway	458	-2	456	-
Russia	11,120	1,261	12,381	-179
Estonia	488	-32	456	-
Lithuania	1,897	-181	1,716	-70
Latvia	1,084	-12	1,072	-
Croatia	773	-227	546	-
Netherlands	465	-40	425	-
Number of customers	19,721	567	20,288	-249

¹⁾ Additional change due to the new principle decided in Q2 2009

In Q4 2008, Tele2 decided to change its method for calculating the number of customers in the open-call-by-call service in its German fixed telephony base. The one-time effect was an increase of 211,000 in the reported customer base in Germany.

NOTE 11 CAPEX

In Q2 2008 Tele2 Sweden was awarded 4G/LTE (Long Term Evolution) 2.6 GHz spectrum. The payment for the license affected CAPEX by SEK 549 million.

NOTE 12 TRANSACTIONS WITH RELATED PARTIES

Apart from transactions with Transcom no other significant related party transactions have been carried out during 2009. Related parties are presented in Note 39 of the 2008 Annual Report.

NOTE 13 SPLIT OF CENTRAL COSTS IN SWEDEN

From Q2 2009 Tele2 Sweden has been split into core operations and central group functions. Core operations is reported in segment Sweden and central functions is included in the segment Other.

The core operations of Tele2 Sweden comprise the commercial activities within Sweden, comprising the communications services of mobile, fixed telephony, fixed broadband, and domestic carrier business. The central functions of Tele2 Sweden comprise the activities which provide services for the benefit of Tele2 AB's shareholders, other Group companies (including the core operations of Sweden), and the sold entities. These services are provided for example from group wide departments such as group finance, legal, product development, sales & marketing, billing, information technology, international network, and international carrier.

Segment Sweden has, with retroactive effect, been adjusted with the following amounts related to net result from central group functions.
