

Agenda

- WiMAX Forum introduction
- Two paths to Mobile Internet
- Broadband penetration impact on GDP
- WiMAX global development updates
- WiMAX has a time-to-market advantage
- Certification ensures the success of WiMAX operators
- Q & A

The WiMAX Forum®

The WiMAX Forum® is an industry-led organization

Mission

- Establish cost effective and timely certification processes and certification infrastructure for WiMAX that achieve device and network interoperability.
- Publish technical specifications to achieve a commercially viable global ecosystem for WiMAX.
- Actively conduct promotion of the brand and technology to establish WiMAX as the worldwide market leader for broadband wireless.

Working Group Structure

Eight Working Groups

Regional Offices

Brazil, China, Taiwan, India, Russia, Japan, Southeast Asia

The WiMAX Forum® (cont.)

Board Members

Airspan, Aperto, Alvarion, Alcatel-Lucent, **BT**, Cisco, **Clearwire**, **Comcast**, Fujitsu, Huawei, Intel, ITRI, **KDDI**, **KT**, Motorola, Nokia, Samsung, **Sprint-Nextel**, **Tata**, and ZTE

Membership

- Robust ecosystem partners across the whole value chain
- More than 33% members are operators

Two Paths to Mobile Internet

WiMAX™ has many Characteristics of Mobile Internet

Mobile

Mature Markets

Walled Garden

Voice + SMS + Data

Billable Traffic

End User Pay

Mobile Phones

3GPP/3GPP2

Circuit + Packet Switched Core

CDMA

Operator Controlled Distribution Channel

LTE/SAE (In 2-3 years)

Mobile Internet

Growing Markets

Open Internet

Broadband

Flat Rate

End user or 3rd Party Pay, Revenue Sharing

Notebooks, Netbooks, Smartphone, MID & CE

3GPP Many Open Standards

Flat IP Core

OFDMA

Retail Distribution Channel

Internet

Growing Markets

Open Internet

Broadband

Flat Rate

End user or 3rd party pay, Revenue sharing

Notebooks, Netbooks, Desktops

IEEE, IETF, W3C, DOCSIS, DSL, Wi-Fi, etc.

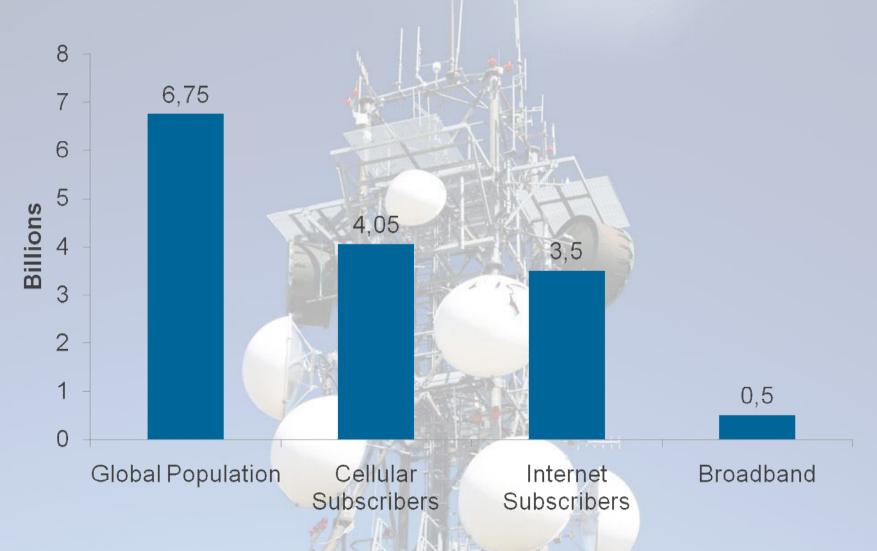

Flat IP Core

OFDMA

Retail Distribution Channel

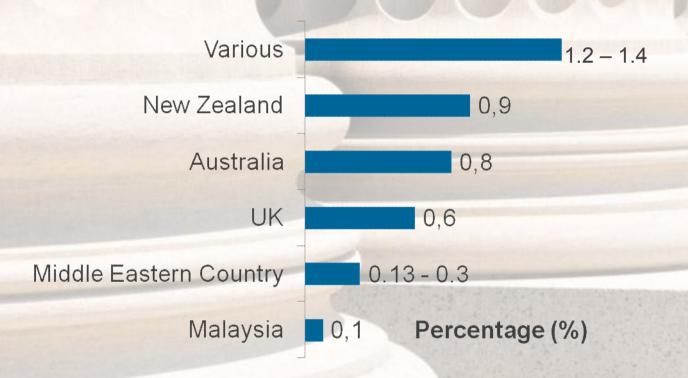

Broadband Market Opportunity

WiMAX and GSM/3G Voice Networks – The Perfect Marriage

Which non-WiMAX networks should the WiMAX device support?

WiMAX Certification Assurance

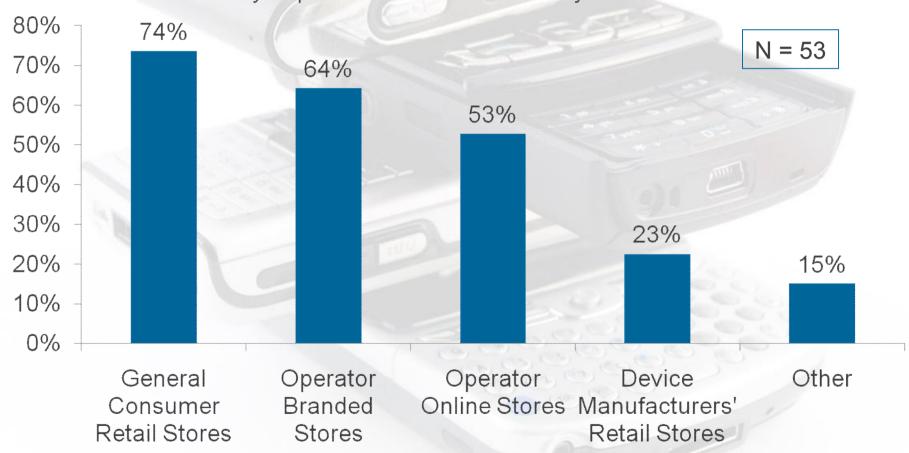

- Certification ensures
 - Interoperability
 - Scalability
 - Retail business model
 - Global roaming

WiMAX Operators Endorse the Retail Model

How do you plan to sell the devices to your customers?

Operators Demand Certification

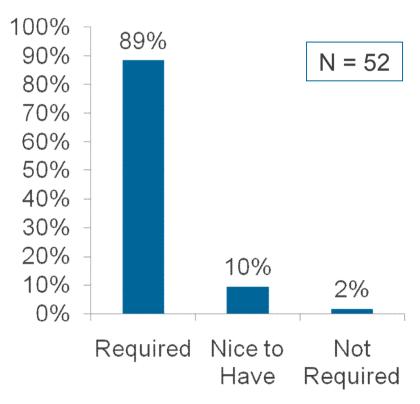

"We will expect all WiMAX products to become IOT Certified before entering an operator's network."

Ali Tabassi, Senior VP of Global Ecosystem and Standards, Clearwire

"A variety of WiMAX Forum Certified end products are indispensable for UQ pursuing the retail distribution business model."

Takashi Tanaka, President, UQ Communications Inc.

Will you require WiMAX Forum Certification?
