POWER SURGE

gameware DEVELOPMENT

Mobile Pinball

Power Surge is a **3D arcade pinball game** for the new generation of mobiles, delivering an immersive experience packed with innovative features for a generation familiar with 3D console titles.

The game has **accurate 3D collision**, animated cameras, **dynamic lighting** and **particle effects** linked to the different features, **Multi-tables** and **Multi-games**.

2D Pinball games have already proven the popularity of the genre with mobile games players, This 3D iteration is a **pick up and play** format that is familiar and accessible, yet has the depth and excitement to hold a players interest.

Game progression

Break through the hi-tech security gate on the main table to access the **extra games** by cracking the main security code or destroying each of the machines security measures. The main table is packed with features, giving the player a depth of game play.

Extra play areas include the **Glass Barrier Level**, where the challenge is to break through security glass panels within the timeframe, and the **Vault Door Level** where the player needs to deactivate all the spinning buttons on the vault door to unlock it, and gain access to the **Main Vault** for maximum reward points.

Features

- **Code Breaker, System Hack, Short Circuit**
- **Sensor Sweep, Power Surge** and **Scattered jewels**
- **Bullion, detonators, bombs,** and **moving targets**.
- Plus traditional features associated with Pinball such as **Multiball** and **extra lives**.
